

PX Series

Contemporary Style. Heavy Duty.

PX Series Fire Helmets are designed Bullard Tough for extreme conditions. With a low center of gravity for superior balance, the PX incorporates recommendations from veteran firefighters from around the world.

Contemporary Styling

The sleek design of the PX Fire Helmet offers lightweight comfort and a low center of gravity, which is vital to providing a stable and comfortable fit in the uncertain environment of a fire scene. The easy-turn ratchet sizing and leather ratchet cover increases the overall comfort and security of the helmet.

Tough and Durable

The outer shell of the PX is made of high-heat thermoplastic, formulated especially for Bullard. This material provides greater impact and penetration resistance than fiberglass and has a higher degradation resistance after repeated heat exposure. PX helmets have color pigment molded throughout the outer shell, so nicks and chips are less visible.

Maximum Visibility

PX helmets feature Scotchlite® striping, which retains reflectivity to 500°F (260°C). This makes Scotchlite the toughest material available for helmet markings.

Molded Inner Liner Impact Cap System

PX helmets are equipped with a molded inner liner impact cap system that provides superior durability, resistance to heat, and thermal rise protection. It also keeps the helmet shell secure and stable, and the molded goggle grommets allow for greater goggle comfort, support, and performance.

NFPA Approved

The FX Fire Helmet exceeds the NFPA 1971, Standard on Protective Ensemble for Structural Fire Fighting and Proximity Fire Fighting, Pertaining to Structural Fire Helmets.

Cost-Effective Maintenance

PX helmets make maintenance easy and cost-effective. Fewer helmet components and one of the lowest total costs of ownership in the industry make your PX helmet a long-term investment.

Custom Comfort

All Bullard fire helmets are equipped with the U-Fit System, offering 36 custom comfort settings. By engineering our helmets to include 36 points of adjustment, you can adjust the ride and balance of your helmet. It's like having a custom-fitted helmet, designed just for you.

Online Leather Front Ordering

Personalized leather front ordering has never been easier! Design your own leather front, right now online at www.BuildYourBullard.com.

ReTrak Integrated Visor

The ReTrak Helmet Series offers emergency responders a fire helmet with an integrated visor that easily accommodates eyewear and features a simple one-handed operation.

Integrated Helmet Lighting Available

The PX fire helmet is available with Bullard TrakLite® helmet lighting. TrakLite is integrated into the helmet design for excellent weight balance and illumination.

PX Fire Helmet

Technical Specifications

Dimensions: 14"L x 12"W x 7"H
 Outer Shell Material: Thermoplastic
 Inner Shell Material: Non-CFC Urethane foam
 Suspension: 6-point with soft crown pad
 Warranty: Date of Manufacture; five (5) years on shell, 10 years on non-electronic components

Optional Accessories

- 1A ReTrak Integrated Helmet Visor
- 2A TrakLite Integrated Helmet Lighting
- R325 6" Faceshield
- Red-Orange Reflective Scotchlite Striping
- R721YLW Yellow Nomex Ear/Neck Protector

1 Thermoplastic outer shell

The PX outer shell has color pigment molded throughout the shell. It offers a tough Ultem® Thermoplastic shell offering the ultimate in impact and penetration resistance.

2 M-PACT Plus Molded Inner Liner System

Protects head against heat rise and provides an extra layer of protection against falling objects.

3 4" optically correct faceshield

Optically correct faceshield eliminates distortion and reduces eye stress and fatigue.

4 Nomex® ear cover

Nomex is a heat and flame resistant fabric made by DuPont. Provides premium protection in high heat situations.

5 Chinstrap with postman's slide

Easy to adjust and secure.

6 Sure-Lock® ratchet headband with comfort brow pad

(leather brow pad optional)
 Sure-Lock is the top performing ratchet headband, made exclusively by Bullard. Comfort brow pad is removable and washable or replaceable.

7 Scotchlite® reflective markings

The highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.

8 Stainless steel D-ring

Large, durable D-ring allows you to hang your helmet on virtually any size hook.

9 Crown straps with crown pad

Comfortable 6-point suspension system with soft crown pad that provides an extra level of comfort while wearing the helmet.

10 Three position ratchet height adjuster (not shown)

The height adjuster is the base of our 36-point comfort system. Adjust to ride high, low, or somewhere in the middle for a custom fit.

2A TrakLite® Integrated Lighting

Available with Bullard TrakLite helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination. Added safety features include the rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation. Select models can also be retrofitted to include TrakLite.

1A ReTrak Integrated Visor (not shown)

Available with Bullard ReTrak Integrated Visor, featuring a simple one-handed operation in a design that accommodates eyewear.

PX Firedome Helmet NFPA 1971
