

ORALITE® FTP2500

Ultra Brilliance® Series Fire Trim

Prismatic Reflective Film designed to protect firefighters in the worst case scenario of their careers, when visibility makes ALL the difference.

Product Features	Benefits
New ultra flexible construction	= Trim conforms to gear for ultra comfort
Works when wet	= Ensures visibility in all conditions
Edge-to-edge reflectivity	= Provides greatest visibility in low-light conditions
Prismatic retroreflective performance	= Highest reflectivity on the market Up to 2X the dry performance of glass bead products
Smooth sealed outer surface	= Abrasion resistant and easy to clean
Mono-layered construction	= Toughest trim in the fire service industry Year after year performance
Specification compliant	= Meets and exceeds requirements for NFPA 1971-2013 NFPA 1977-2011 CAN/CGSB-155.1-2001
